152,612 SF

77 West Wacker is a shining example of modern classicism, standing boldly on the riverfront. Designer Ricardo Bofill of Barcelona and Chicago architect James DeStefano joined forces, combining noble materials with classical details, to yield a timelessly modern space. With its silver, reflective exterior and colonnades and pediments inspired by the architecture of ancient Greece and Rome – this 50-story office tower permeates the Chicago skyline. Enter the lobby, and you're greeted by 42-foot ceilings, Mediterranean marble, an abundance of natural light, and stunning works of art. By night, the building is illuminated through a design by Pierre Arnaud, who also lit the Parthenon in Athens and the Pyramids in Egypt. To top it off, 77 West Wacker is thoroughly fit for the modern tenant. It's centrally located and just steps away from the Riverwalk, an abundance of transit options, and an array of quality dining and entertainment possibilities.

Building Amenities

77 West Wacker delivers work, wellness, and convenience in a timelessly modern design.

The 8,000 SF conference space and hospitality lounge offer 30' high ceilings, soft seating, a fireplace, an outdoor plaza, and private mezzanine level meeting rooms. An on-site concierge is available for tenant event planning and corporate services.

The 12,000 sf full-service fitness center is complete with a basketball court, rejuvenating saunas, an aerobics studio, and physical therapy.

77 West Wacker offers convenience through a 42 space heated executive lower level and 1,200 parking spaces at an adjacent garage, alongside a secured bicycle storage room and a fix station. Additionally, there's a full-service restaurant and bar located right in the lobby of the building offering sit-down, carry-out, catering services, and al fresco dining with a private outdoor terrace.
